Public Programs Unit | National Library
9. Stationary

Stationary and library material make an unhappy marriage
A fold of paper or cotton tape can replace most stationary

Tape oozes its adhesive and discours paper permanently

Pins and paper clips rust and damage paper

Rubber bands at work

Degraded rubber bands can stain library material permanently

String cuts

Library material should not be held while holding a writing implement

8. Note taking

Make notes on paper laid on the surface of the table - not on paper placed on an open or closed book

Avoid direct contact with the surface of manuscripts - use a slip of paper to follow the text

I hereby undertake not to remove from the library, or to mark, deface, or injure in any way...

Replacing torn out pages is a lengthy and extremely costly process

(To be continued in the next issue)
